"We understand the ag economy is tight right now and it is inspiring to see companies and individuals stepping up! Our Star Partners are leading by example, committing financially to meet the needs of our students who are our future leaders and employees. These partners help provide quality leadership training for our FFA members, creating a pipeline of employee development for the production, business, and science sectors of the SD agriculture industry."

Star Partner Program support provides resources for the South Dakota FFA Association, South Dakota FFA Alumni, South Dakota Association of Agricultural Educators, South Dakota FFA Foundation, post secondary agricultural events, and agricultural education at South Dakota State University.

“It’s a win-win partnership as all levels of our agriculture education programs receive valuable support to prepare future employees for agricultural careers and develop skills to provide leadership for their local communities, while at the same time businesses and organizations receive year-long recognition for their partnership.” says Eide.
